WILD Thingz!

WILD THINGZ is fun and adventure in the natural world with just a touch of education for pre-schoolers.

Think of it as Hanna Barbera meets National Geographic.

Animated characters, carefully combined with the very best natural history footage available in fun filled stories and adventures that will keep pre-schoolers enthralled.

Join us in their comical capers as our bunch of **WILD THINGZ** take us deep into their worlds.

Flying high, diving deep; from the Ocean Depths to Polar Zones to Wondrous Rainforests and African plains

Everywhere our animated hosts roam; we discover fascinating places and creatures in the wild and find out more about them.

What better way to introduce our children to the wonders of Nature than through the adventures of a bunch of truly colourful little friends.

Produced with animation over Hi Definition live action backgrounds of the ocean, Antarctica, Australian rainforest and African countryside – the **WILD THINGZ** will have natural appeal to their pre-school audience on many fronts.

A **WILD THINGZ** half-hour TV series will feature the short stories plus other elements, including three different fact features – the “Fact Zone”, the “Endangered Zone” and the “Extinct Zone”.
